Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	17
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Main Tasks Assigned:

Prepare final project presentation
Submit final report and code
Record project video documentation (if required)

Work Completed:

More tests have been added to determine how well it performs in various conditions, although not all scenarios have been covered yet

Challenges Encountered:

While the system works, it is not perfect and has difficulty answering particularly rare or hard questions.

Solutions Implemented:

Additional testing was conducted, and the model was fine-tuned further.

Tasks for Next Week:

Conduct final testing to ensure that it is ready to use

Instructor's Feedback:

Instructor's Signature: _____

Date: _____
