

Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	14
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Main Tasks Assigned:

Optimize model based on Week 3 results
Improve data augmentation and preprocessing techniques
Continue model training and monitor validation performance

Work Completed:

Optimized the chatbot's performance to decrease response time.

Challenges Encountered:

Difficulty maintaining consistent and relevant replies.

Solutions Implemented:

Enhanced the training data to improve response accuracy.

Tasks for Next Week:

Approximately 80% accuracy and completion

Instructor's Feedback:
