Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	**11**
Course Code:	**CSST101, CSST102**	Term:	1st Semester
Course Title:	**Advance Representation and Reasoning** **Basic Machine Learning**	Academic Year:	2024-2025

Main Tasks Assigned:

Select dataset for the project
Prepare and preprocess the data
Define project scope and assign roles to team members (if in a group)

Work Completed:

Established the basic specifications and objectives for the chatbot.

Challenges Encountered:

The scope and requirements clarification process took longer than anticipated.

Solutions Implemented:

held extra sessions to hone the specifications..

Tasks for Next Week:

For the chatbot, look for a database.

Instructor's Feedback:
Find the database the chatbot needs or matches.
